n/a

Claims discussed:

1

Prior art documents discussed:

n/a

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

permission was granted to insert "in a press" in claim 1, line 7

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Exr. proposed an amendment to claim 1 to clarify that only the preheating was performed in response to the measurement signal; the rep argued that step (d) set forth control of the pre-heating; the Exr. argued that the art indicated that heat control was known in the art in response to a structural defect, and that the record should indicate that it is the first heater that is manipulated in response to the signal, in particular the pre-heater, and further proposed amending the phrase to "controlling the step of pre-heating" as such requires controlling pre-heating by the pre-heater having a first heating means; the amendment was accepted and the application passed to issue. .
